

The African Rebirth Vision

*...Rebuilding and
Rebranding the
African Continent....*

WHO ARE WE?

- **The African Rebirth Vision (TARV)** supports constructive public and private partnerships, representing local and foreign investments across Africa.
- Our core objective is to safeguard and advance business and community interests by engaging with government bodies, and regulators. We advocate for favorable regulations and legislation that foster investment, economic growth, and job creation.
- By proactively addressing challenges and promoting investment potentials through media partnerships, we aim to enhance the attractiveness of African countries, encourage rebranding, and stimulate investor interest, ultimately fostering sustained economic development.

OUR HISTORY

- THE AFRICAN REBIRTH VISION - Our organization, TARV, traces its roots back to a pivotal collaboration between our founding partner, Hapel Group that has been in operation for over 60 years, and its remarkable establishment of a secure and conducive environment that enticed Stefanutti Stocks a South African company to invest in Nigeria. This initial partnership yielded remarkable outcomes, including the creation of over 5,000 jobs and the launch of 200 infrastructure development projects, greatly benefiting local communities. This successful venture served as the inspiration for our founder to conceptualize and formalize TARV, leading to our inaugural event held in Nigeria.
- The inception of TARV embodies our dedication to building upon past achievements and extending our endeavors across Africa. Our mission is to actively contribute to sustainable economic growth by proactively addressing challenges, spotlighting investment potential, and cultivating a favorable investment landscape within African nations whilst proactively addressing challenges which may deter the success of these opportunities. Through strategic collaborations with media entities, we strive to elevate the appeal of African countries,

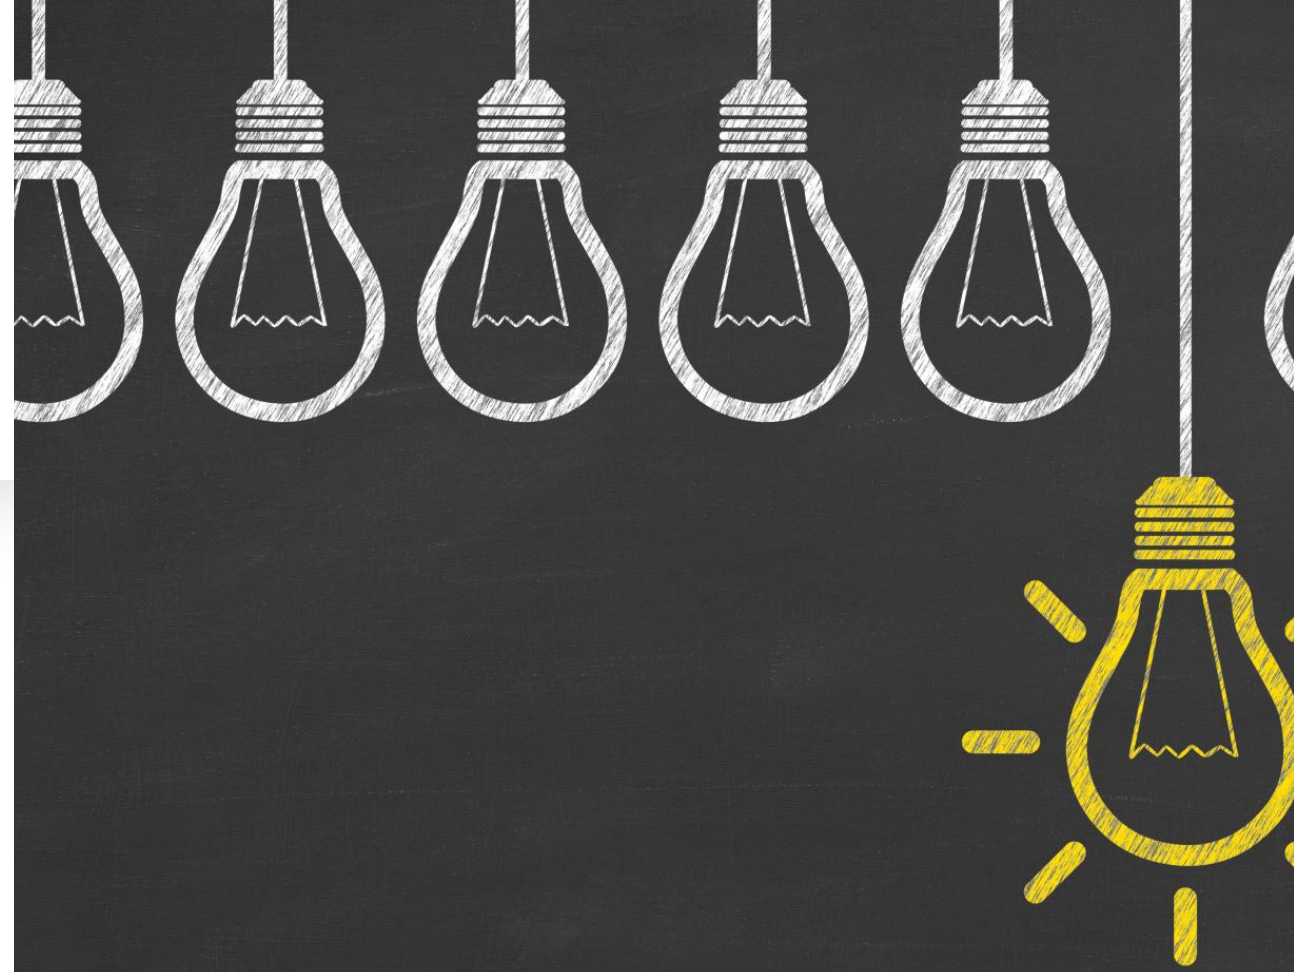

OUR SHARED VISION

- Rebuilding and rebranding to create an empowered Africa, utilizing its abundant resources for the benefit of all, while fostering sustainable growth and promoting equitable foreign partnerships

OUR MISSION

- Our mission is to champion Africa's development and economic growth through a bottom-up approach, guiding governments to adopt inclusive policies and initiatives.
- We strive to attract foreign partnerships that align with our values, ensuring that Africa's resources are harnessed responsibly and utilized to uplift African communities, foster entrepreneurship, and drive sustainable development
